[Get the mobile app](#)

**Click on this link at the lower footer of the eLearning platform to install the MOODLE Mobile App from your computer. To install the App from your mobile phone, follow the steps on the following slides.**

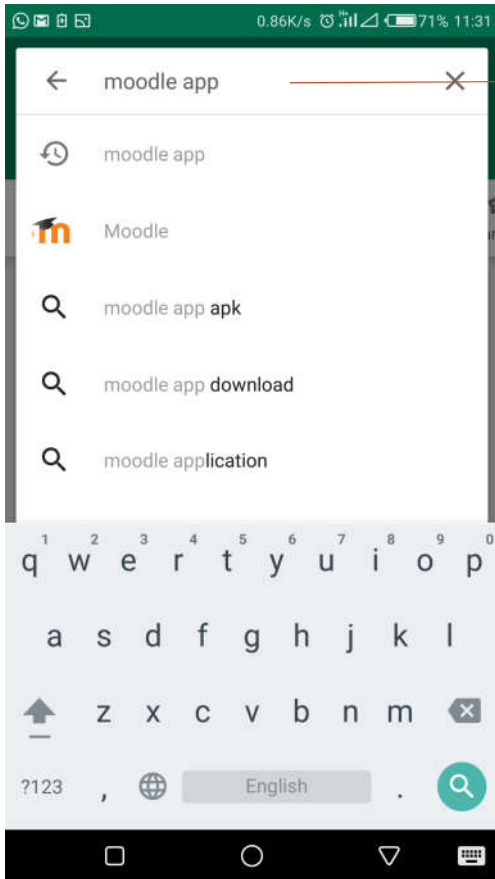

# INSTALLING MOODLE APP FROM YOUR PHONE

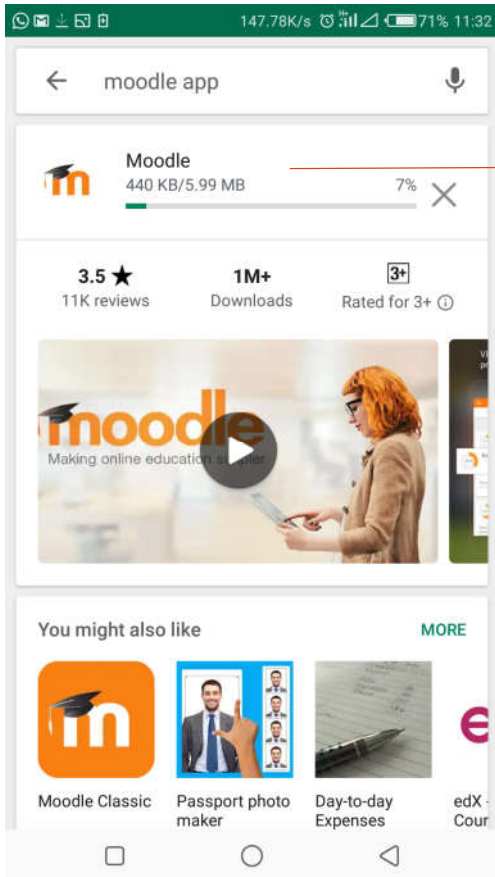

From Google apps, tap to open Play Store

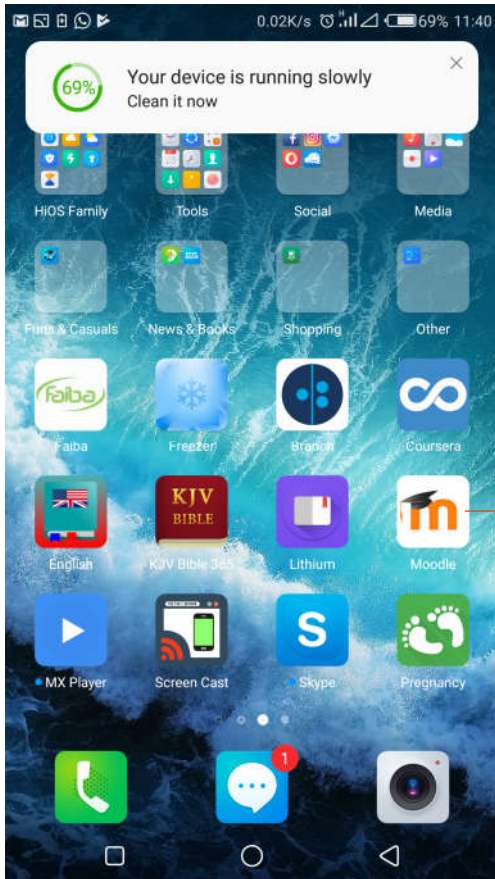

From Play Store, search Moodle App

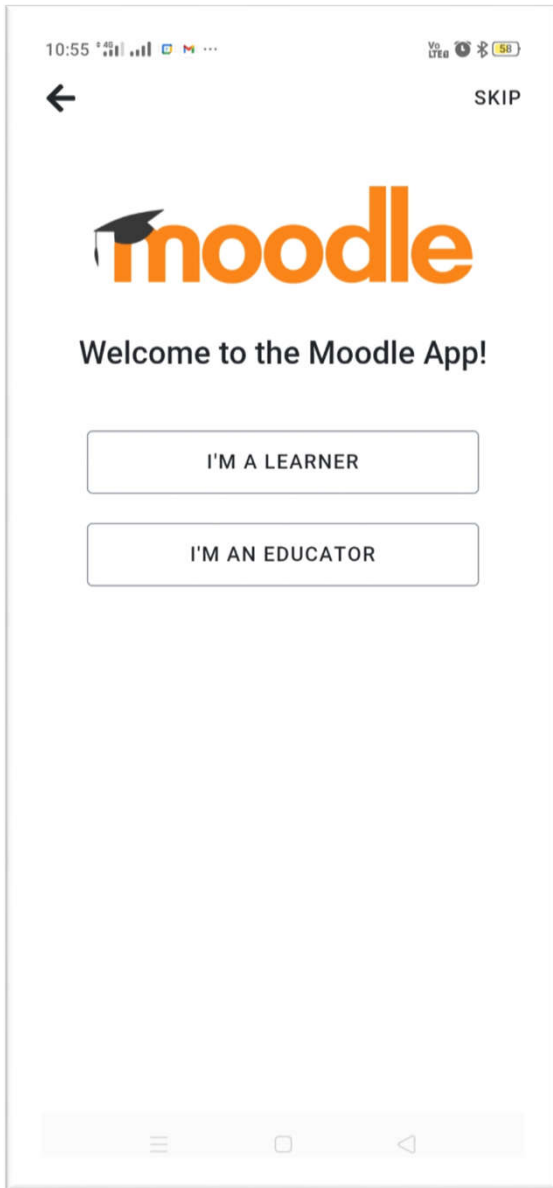

Install the App

Open the App

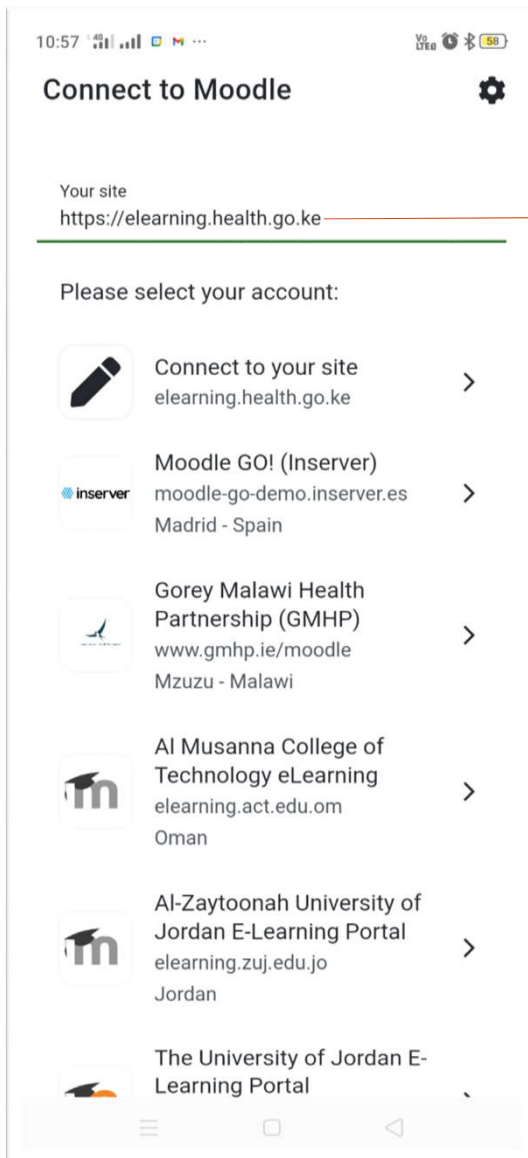

Select Learner or educator. You can skip this step

## Connect to Moodle

Your site  
<https://elearning.health.go.ke>

Please select your account:

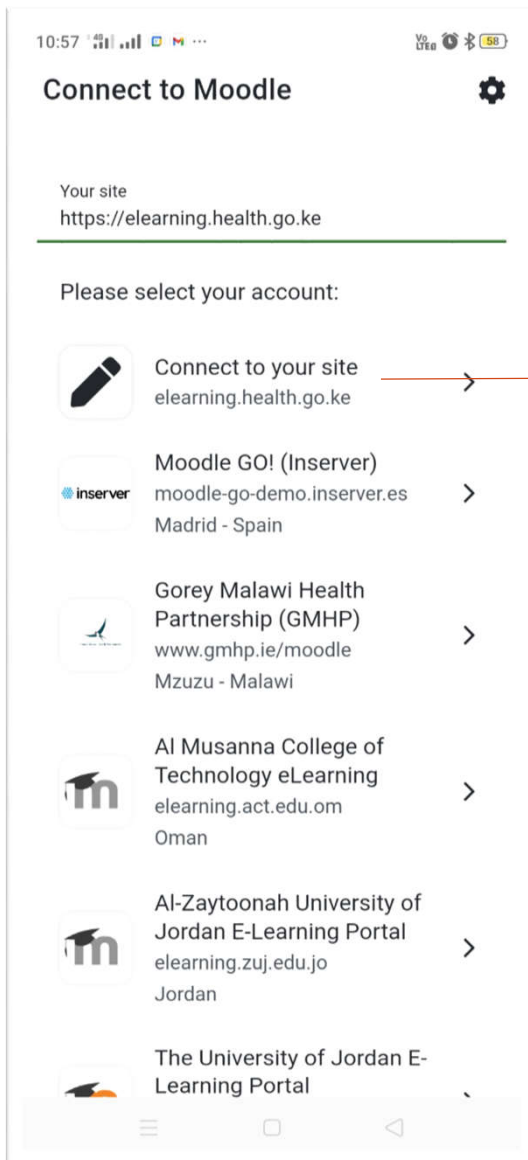

-  Connect to your site  
elearning.health.go.ke >
-  Moodle GO! (Inserver)  
moodle-go-demo.inserver.es >  
Madrid - Spain
-  Gorey Malawi Health  
Partnership (GMHP) >  
www.gmhp.ie/moodle  
Mzuzu - Malawi
-  Al Musanna College of  
Technology eLearning >  
elearning.act.edu.om  
Oman
-  Al-Zaytoonah University of  
Jordan E-Learning Portal >  
elearning.zuj.edu.jo  
Jordan
-  The University of Jordan E-  
Learning Portal >

Enter the site address

<https://elearning.health.go.ke/>

**Note** that if you already have Moodle App installed on your Mobile phone, skip this step and go to slide 12.

From the links that will be listed, click on

[Forgotten your username or password?](#)

Log in using your account on:

 GOOGLE

Is this your first time here?

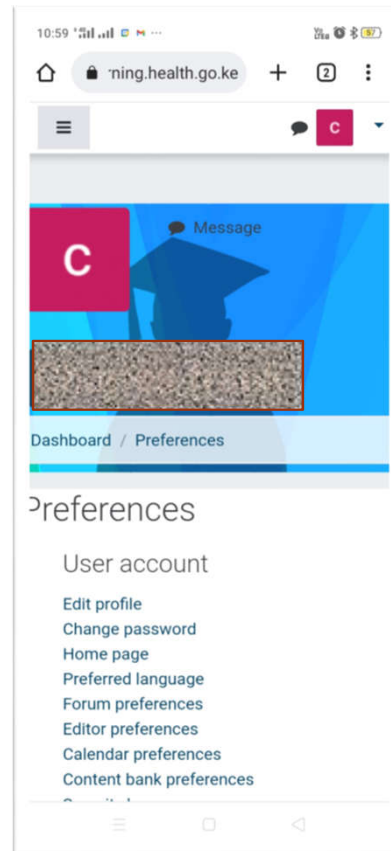

For full access to this site, you first need to create an account.

- You will be prompted to enter your username and password. These are the same details you use to login on your computer.
- Enter the above and tap on LOG IN button.
- You can also login with your GOOGLE account.

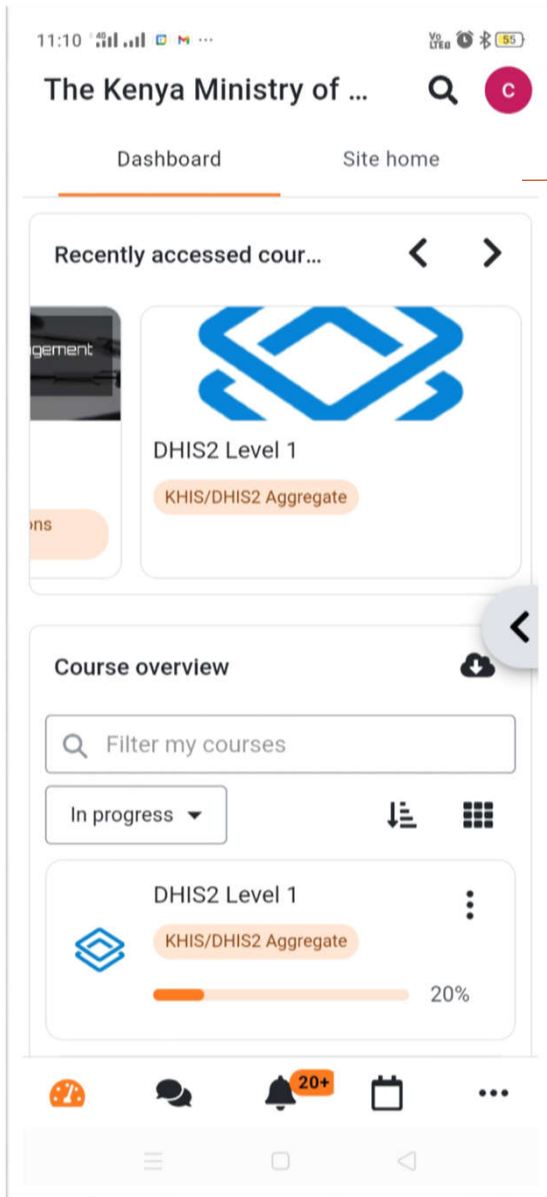

This is your landing page after login. By default, your dashboard is displayed. It displays Recently accessed courses, and a list of all the courses you are enrolled to.

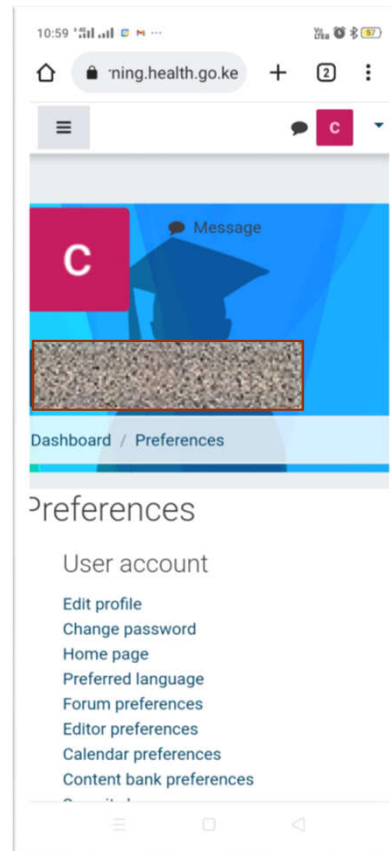

If your account is not current, you will be redirected to your profile page to populate extra information like Gender of Phone number. Kindly fill all the required fields.

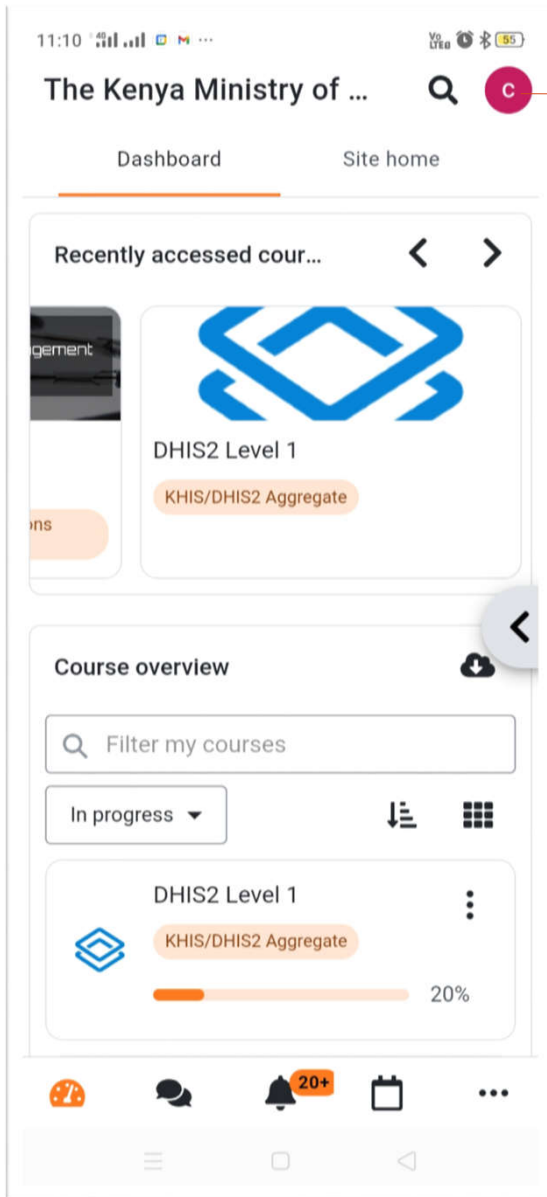

This is your landing page after login. By default, your dashboard is displayed. It displays Recently accessed courses, and a list of all the courses you are enrolled to.

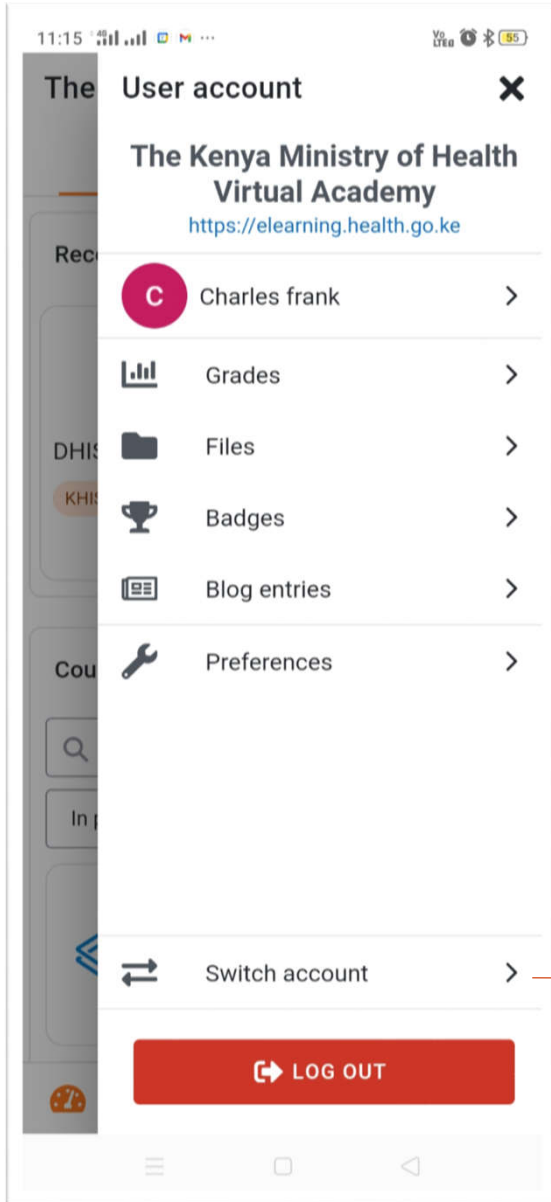

If your account is not current, you will be redirected to your profile page to populate extra information like Gender of Phone number. Kindly fill all the required fields.

If you already have a MOODLE App and already connected to another site, it is possible for you to add another site. To do that, tap on actions user profile icon.

Tap on Switch account.

Tap on the 'plus button' and follow the procedure from slide 9.

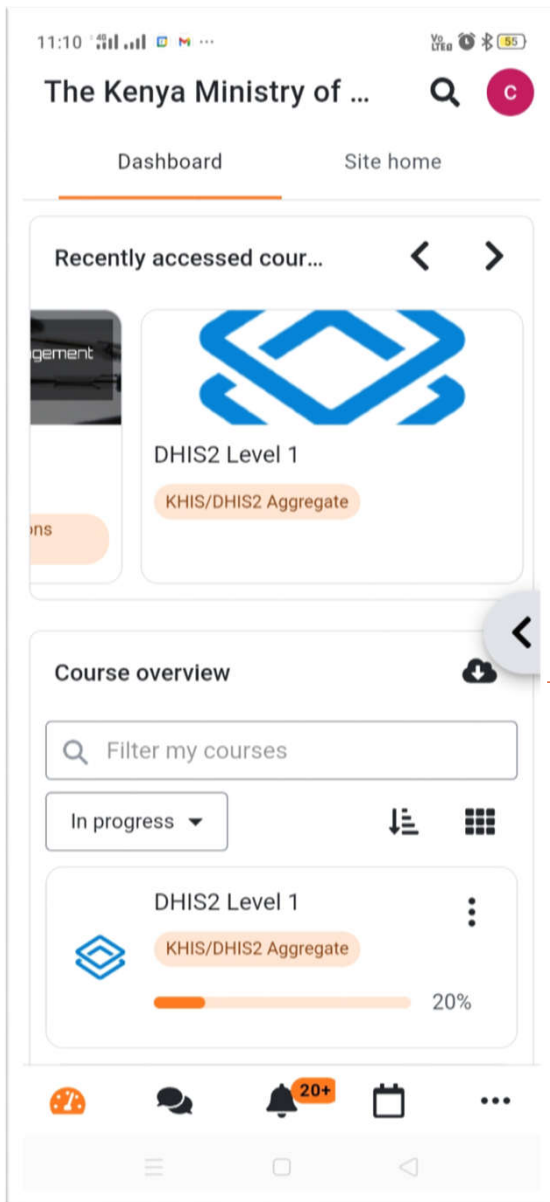

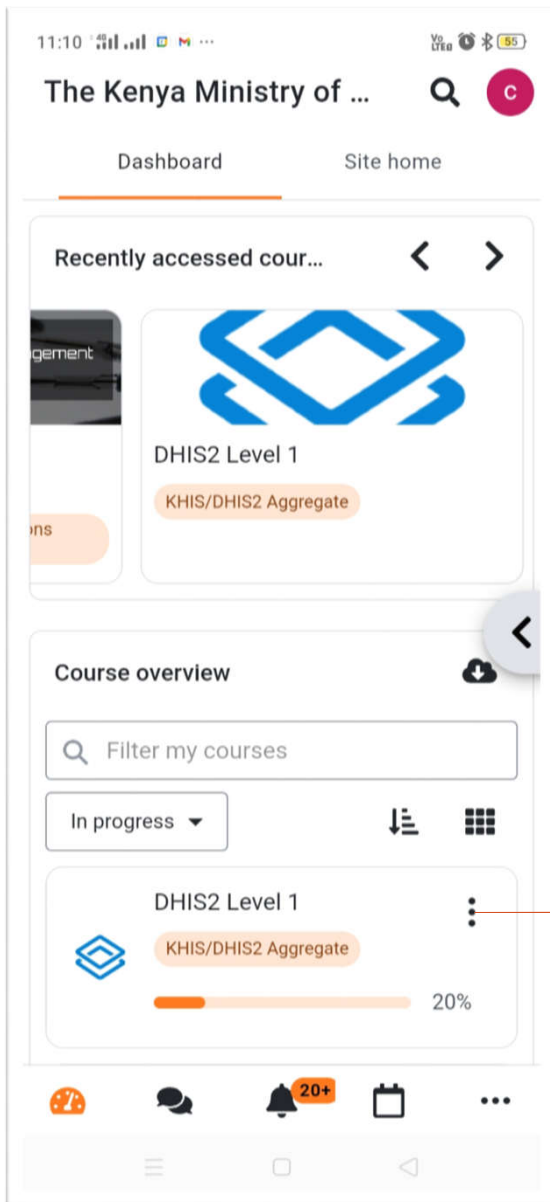

If you want to edit existing connection, tap on the edit icon(pen). This also allows you to delete an existing connection.

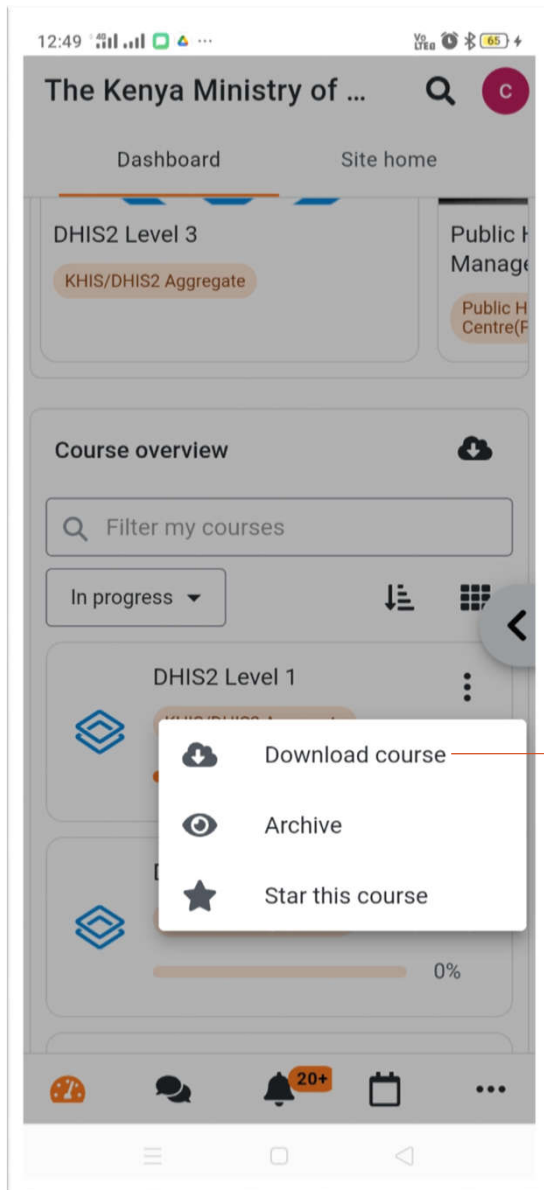

Back to the dashboard. I'll now show you how to access your course content offline.

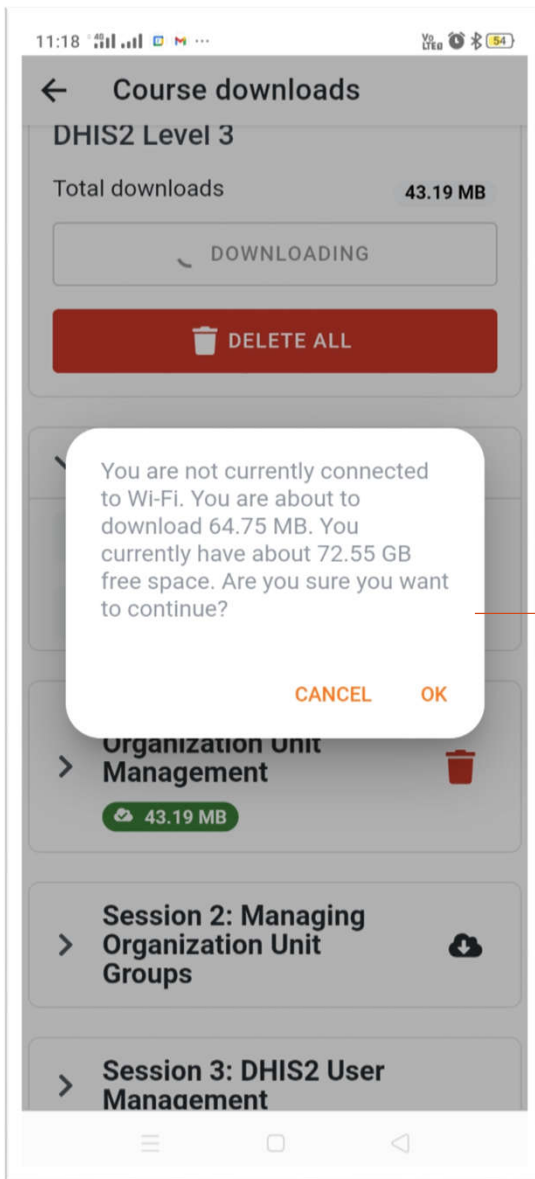

Each course on your dashboard has actions button. If you want to download a course, tap on the actions button(Three vertical dots) for that particular course.

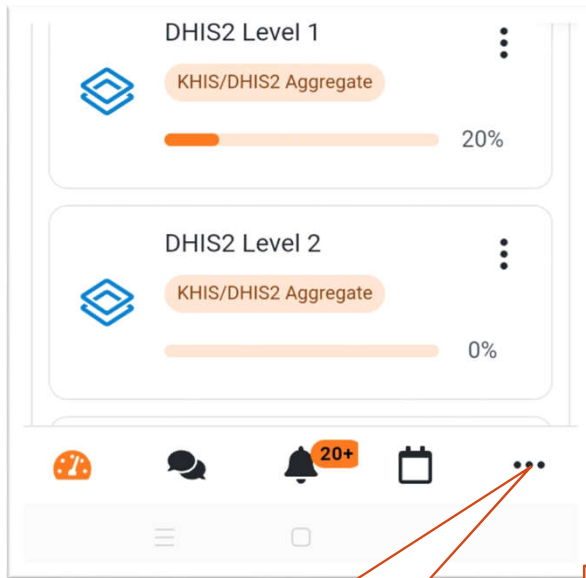

**Download the course. Always ensure you have enough storage before downloading. Once downloaded, the course will be available offline.**

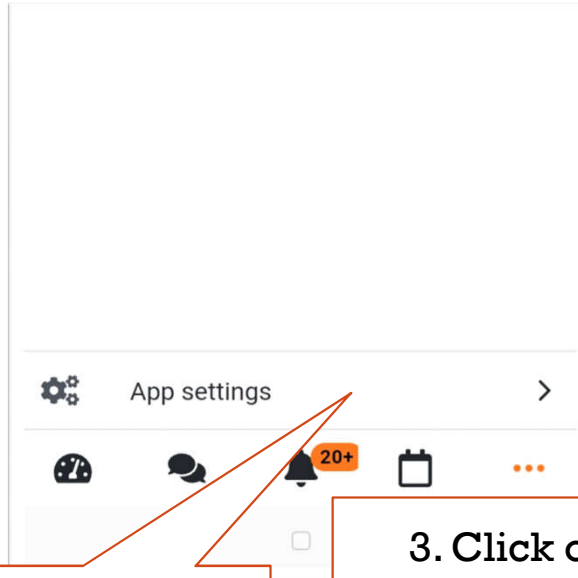

You may encounter this error while trying to download your course. This means you are not connected to any WIFI. To download over mobile data, follow the steps below.

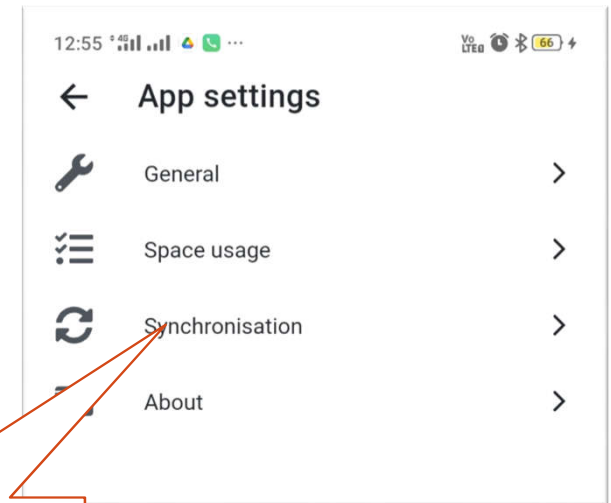

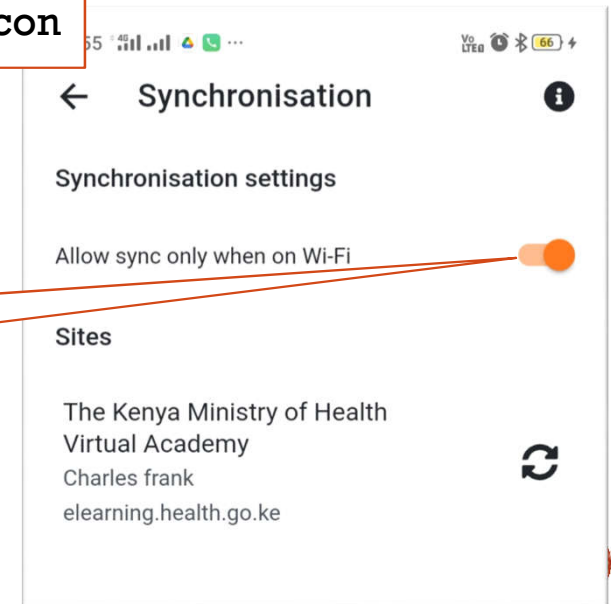

1. Click on actions icon at the bottom right of the screen

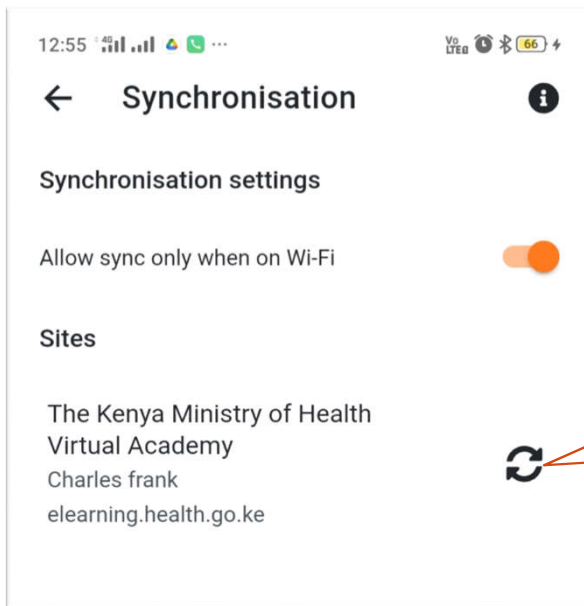

2. Click on App settings icon

3. Click on App Synchronization icon

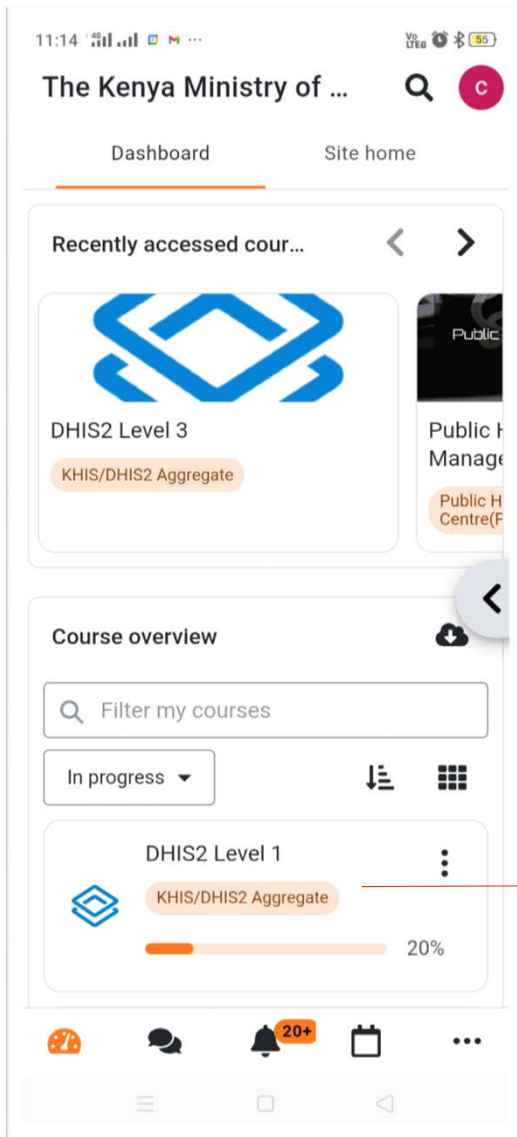

4. Turn off WI-FI only sync to allow downloads via mobile data.

**After taking your courses offline,  
always remember to synchronize to  
send progress report back to the  
server.**

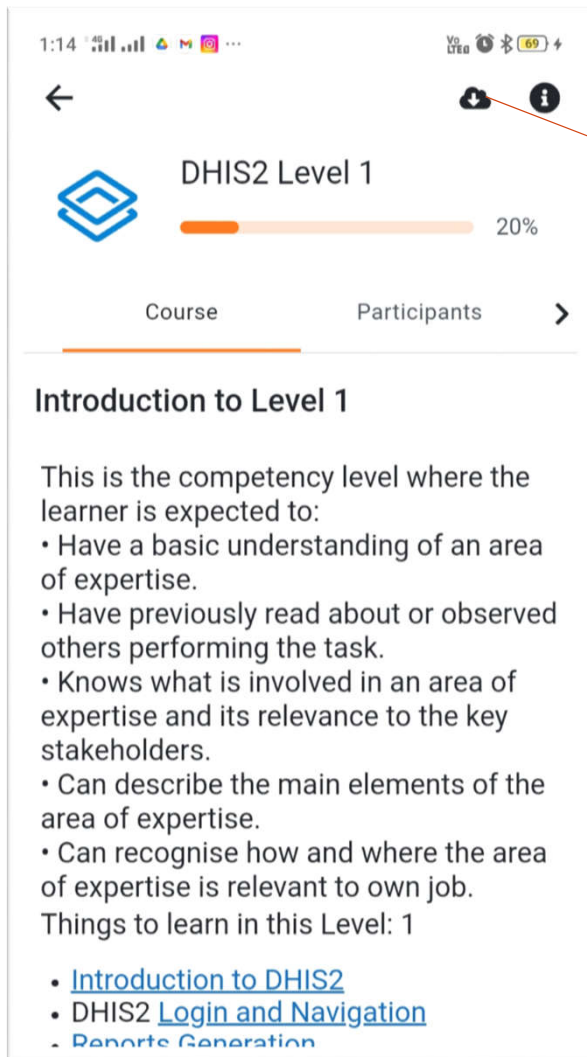

You may want to download a particular video, document or resource without necessarily downloading the entire course. Tap on the course to open it.

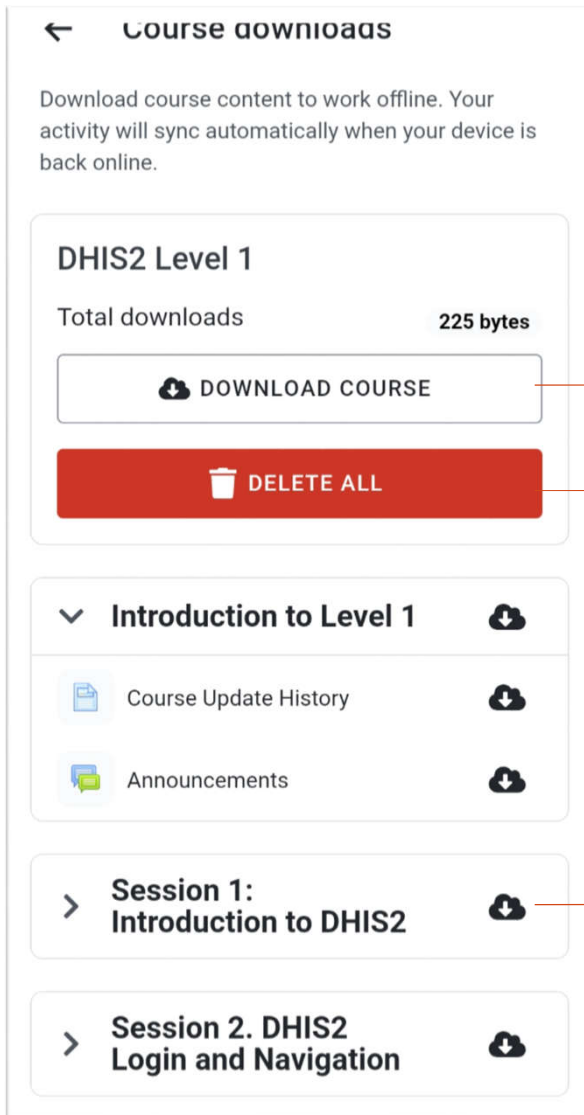

From the course page, tap on download icon as shown.

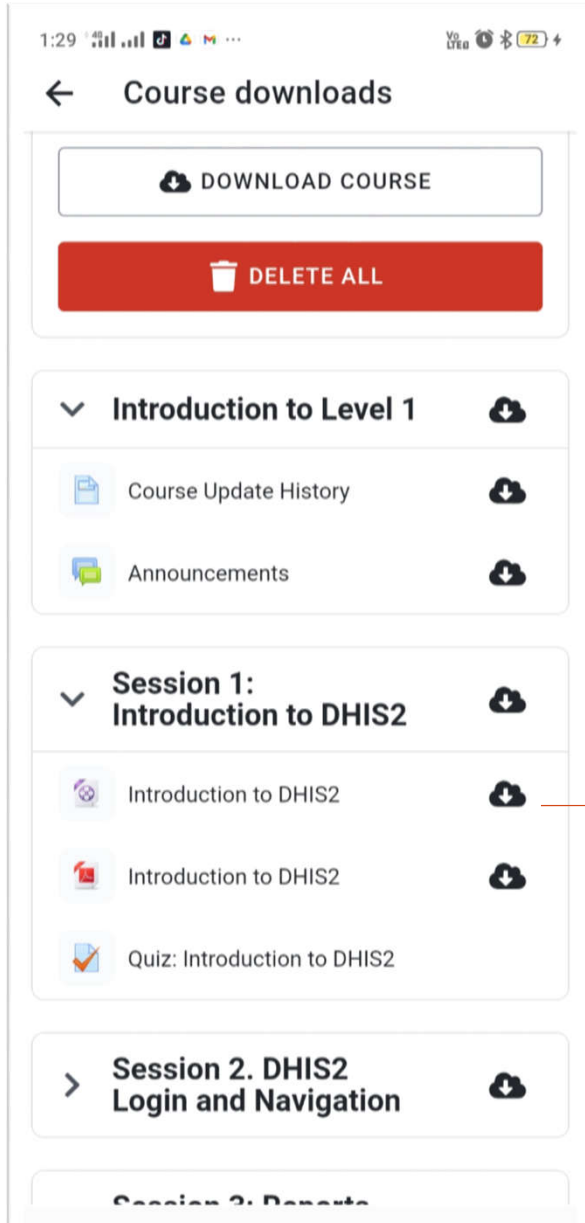

Download course icon still downloads the entire course.

Delete all downloaded course files from your phone memory

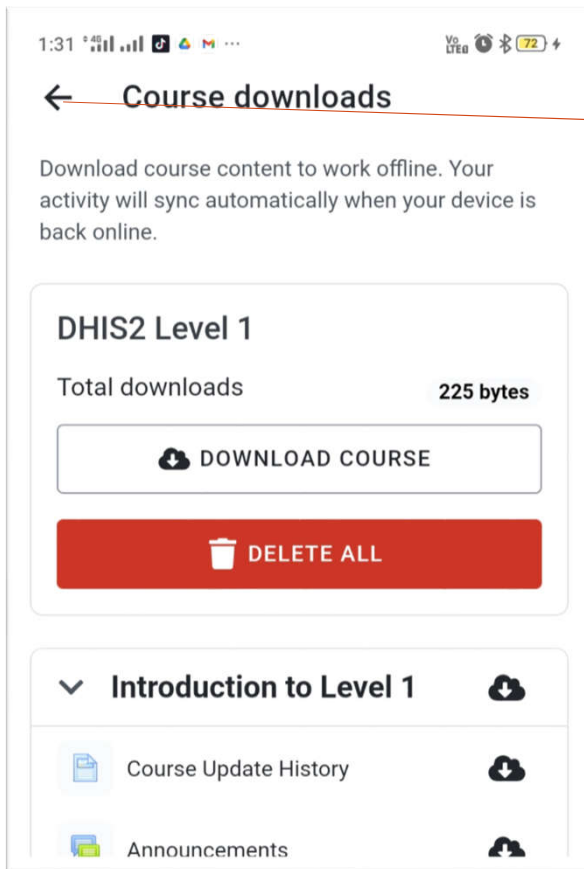

Tap on show download an entire section, or drill down to specific file and download by tapping on the download icon.

Download a specific file

Use the back arrow to navigate back to your dashboard

# FURTHER LEARNING

Kindly explore the following:

- Font size adjustment
- Background color adjustment
- Space usage management
- Site subscription and Downloads Management
- Messaging

**THAT'S ALL YOU NEED TO KNOW TO GET  
YOU STARTED WITH MOODLE MOBILE APP**

**THANK YOU**
